

Request for Council Action

Originator Engineering	Item Request approval of a contract for Civil and Traffic Engineering Professional Design and Construction Engineering Services with Bolton & Menk, Inc.
Agenda Section Consent Business	Date 3/21/2016

Description

Bolton & Menk, Inc. has provided consulting engineering services for a number of capital improvement projects and traffic & transportation projects in the City of Bloomington, and has familiarity with those projects. The projects Bolton & Menk staff has worked on include the Bloomington Cemetery addition, the 2017-110 Multi-modal trail project, 2016-501 Bloomington Ave Sanitary Sewer, 2016-201 Normandale Blvd, 2016-101 PMP Reconstruction and 2016-102 PMP Overlay projects. This would allow Bolton & Menk staff to complete the existing projects, including signal inspection, and provide staff capacity should unforeseen projects come up in 2016. If the services are not needed, the full contract amount will not be expended.

The additional professional engineering services will not affect the general fund budget. The costs of these services are borne by the construction project budgets as is typical. There are funds available in these construction project budgets.

Prepared by: Julie Long, Sr. Civil Engineer
Presented by (if necessary): Shelly Pederson, City Engineer.

Requested Action

Request approval of the contract for Civil and Traffic Engineering Professional Design and Construction Engineering Services with Bolton & Menk, Inc. in the amount of \$197,000.00.
